SOLVING CLIMATE CRISIS

THE POTENTIAL OF UNEQUAL LOSS IN CLIMATE GAME
KILLS TRUST AND CAUSES SINKING TOGETHER.

A wide-angle photograph of a rural landscape. In the foreground, there's a large, vibrant green grassy field. Scattered across the field are several small, dark wooden houses with light-colored roofs, some with visible thatched sections. In the middle ground, a dense forest of dark green trees stretches across the horizon. Behind the forest, a range of mountains is visible, their peaks partially obscured by large, billowing white clouds against a clear blue sky.

we are not doomed

A wide-angle photograph of a rural landscape. In the foreground, there's a large, vibrant green grassy field. Scattered across the field are several small, dark wooden houses with light-colored roofs, some with visible thatched sections. In the middle ground, a dense forest of dark green trees stretches across the horizon. Behind the forest, a range of mountains rises, their peaks partially obscured by large, billowing white clouds against a clear blue sky.

we are not doomed equally

A wide-angle photograph of a rural landscape. In the foreground, there's a large, vibrant green grassy field. On the right side of the field stands a dark-colored wooden building with a light-colored gabled roof. In the background, there are several layers of mountains covered in dense green forests. The sky above is a clear, pale blue, dotted with large, fluffy white clouds.

we are not doomed equally
first impression -> trust

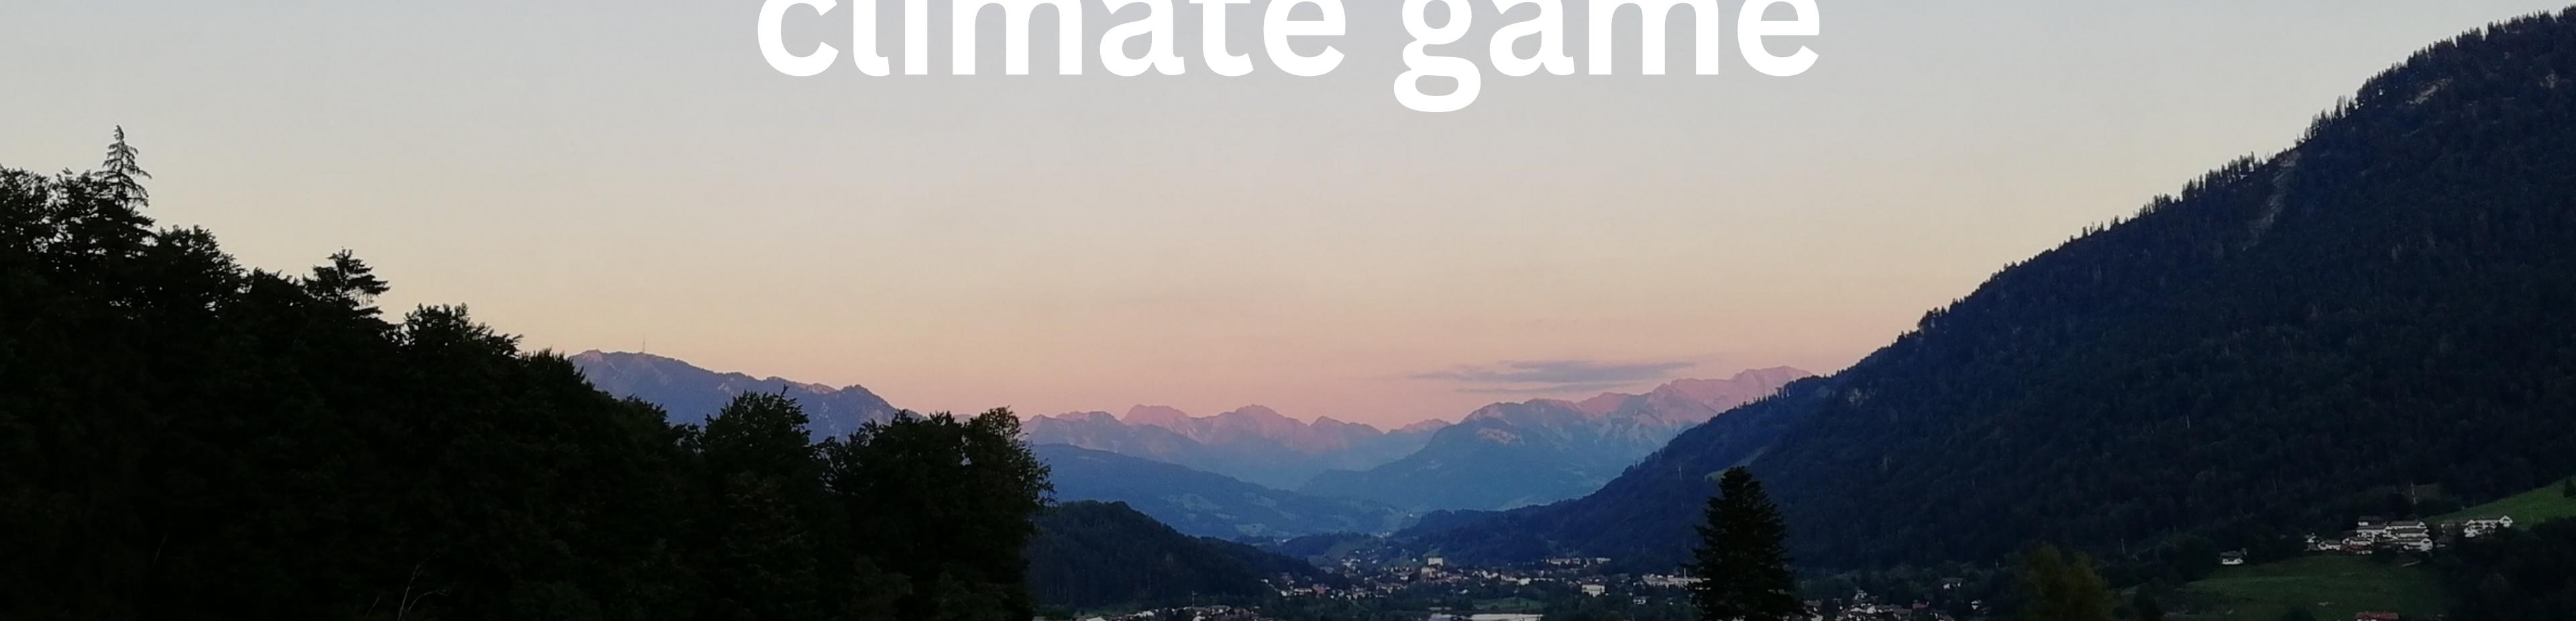

summer february

A wide-angle photograph of a wind farm. In the foreground, there's a mix of green grass and brown, tilled soil. Numerous wind turbines are scattered across the landscape, with one prominent one on the left and another large one in the center-left. The sky is a clear, pale blue.
